Goals:

Civic improvement and promotion of public welfare

Support for the education and activities of area youth

McCall beautification

History:

Since its inception in 1930, the Payette Lakes Progressive Club has been helping to build the McCall community. The Club assisted with the sponsorship of the McCall Public Library, McCall Memorial Hospital, and the formation of Art Roberts Park. Club members promoted the landscaping of city parks and financed the city park sprinkler system in the 1960s. Band uniforms were purchased for the high school in 1969, as well as the first winter street decorations. The tradition of planted flower barrels downtown began with the club.

We welcome you to join this worthy civic organization to help make a positive difference in our wonderful community. Membership is open to women of all ages.
